Of Vaccines and Men

Author/Director: Anne Georget

Producer: Quark productions

Country: France

Length: 85' & 52'

How can we take a step back from the issue of vaccination when the invective of recent years has made any debate inaudible, to the point of drawing the line between science and obscurantism? With researchers, doctors and big names in vaccination, the film explores the scientific advances and the questions that arise from them.

Coproduction TV: Arte GEIE, ORF

TV participation: RTS, Téléquébec

Original version: English, French
