

Argentinian Diary

Author/Director: Lupe Pérez Garcia

Producer: Impossible Films

Country: Spain

Length: 79'

"I have a problem. I could never tell my left from my right."
Convinced that this inaptitude comes from a childhood trauma, Guadalupe Pérez Garcia returns to her country of origin, Argentina, that she left with her family during the financial crash of 2002.

With a great sense of burlesque, she starts a personnel journey along with her mother and step-father into Argentina's chaotic history which is surely at the origin of her difficulties of orientation.
